Veterinary graduate with hands-on training and clinical experience in small and large animal medicine, soft tissue surgeries (spay/neuter), anesthesia, diagnostic imaging (ultrasound, X-ray), and clinical pathology. Successfully cleared NAVLE and BCSE; currently enrolled in the ECFVG program and preparing for the Clinical Proficiency Examination (CPE). Committed to evidence-based veterinary practice and continuous professional development.

SKILLS

- Small & Large Animal Medicine
 - Soft Tissue Surgeries (Spay/Neuter)
 - Anesthesia Monitoring & Administration
 - Diagnostic Imaging (Ultrasound, X-ray)
 - Clinical Pathology & Laboratory Work
 - Boyle's Apparatus & Anesthetic Protocols
 - Patient Handling & Emergency Response
 - Client Education & Communication
 - Vaccination protocols and preventive health management
-

PROFESSIONAL EXPERIENCE

The Healing Touch Pet Clinic & Surgery, Mohali

Oct 2024 - Present

Associate Veterinarian

- Communicate with pet owners to obtain thorough medical histories and address concerns
- Conduct physical examinations and monitor patient vitals
- Educate clients about differential diagnoses and recommend appropriate diagnostic tests
- Position patients for radiographs, take and interpret X-rays
- Prescribe medications and explain treatment protocols to clients
- Assist in surgical procedures and monitor anesthesia
- Counsel new pet owners on nutrition, vaccination, and deworming schedules
- Provide client education on preventive care and pet wellness
- Occasionally manage emergency cases requiring urgent care

RoyalK9 Petcare, Rajpura

June 2024 - Sept 2024

Associate Veterinarian

- Administered and monitored anesthesia during routine and surgical procedures
- Operated and maintained Boyle's apparatus for safe delivery of anesthetic gases
- Performed spay and neuter surgeries independently under supervision
- Conducted physical examinations and participated in diagnostic workups
- Gained proficiency in sterile techniques, instrument handling, and patient preparation

Intern

- Conducted history-taking and physical examinations to support accurate diagnoses
- Collected and processed diagnostic samples for laboratory analysis
- Handled both small and large animal cases in clinical and field settings
- Assisted in surgical procedures including fracture repair, wound management, and spay/neuter surgeries
- Participated in Animal Birth Control (ABC) programs and observed population control surgeries
- Educated pet owners on preventive health, vaccination, and deworming protocols
- Ensured follow-ups and continuity of care for ongoing treatment cases
- Attended a private companion animal clinic as part of internship for additional practical exposure
- Worked closely with veterinarians and staff as part of a team during routine and emergency cases

EDUCATION

Sept 2018 - Feb 2024

GADVASU, Ludhiana

Bachelor of Veterinary Science & Animal Husbandry
